

Primates and paleoanthropology expedition

A **once-in-a-lifetime opportunity** to join an IHO chimpanzee research scientist at the Gombe, Tanzania research area

- Three days of trekking through the forest in search of chimpanzees, with myriad birds, red colobus monkeys, and baboons along the way
- Luxury stay at Ngorongoro Crater to see the “Big 5”
- Visit to Olduvai Gorge, one of the most important paleoanthropological sites in the world
- Spend a day trekking to see mountain gorillas and endangered golden monkeys
- Meet with mountain gorilla researchers from the Dian Fossey Gorilla Fund
- Carefully curated trip featuring arrangements and transport by a long-time African travel expert

Are you ready for a real adventure—more than just viewing wild animals from a platform or Land Rover? This is the trip for you!

Follow long-time chimpanzee researcher Ian Gilby through the forest at arguably the world’s most famous chimpanzee research site—the Gombe Stream Research Center, founded by Jane Goodall in 1965.

Gilby is a Research Affiliate with the Institute of Human Origins and the Codirector of the Gombe chimpanzee database, which contains detailed daily observations collected at Gombe over the last 55 years, and continuing today.

By trekking through the forest and observing this iconic chimpanzee population, you will learn from Dr. Gilby the life stories of individual chimpanzees and how their personalities affect their social relationships, how and why they cooperate, and how environmental challenges are changing their lives.

June 9–21, 2018

Hosted by **Ian Gilby, PhD**

Cost: \$11,700* per person, sharing

Plus, the **ASU Institute of Human Origins requests a charitable donation of \$2,500 per person.** Your gift will help to fund student scholarships, field and laboratory research, and operations of the institute.

*Cost is based on current exchange rates. Single traveler supplement is required. Your gift of \$2,500 per person will be deposited with the ASU Foundation for a New American University, a separate nonprofit organization that exists to support ASU. Gifts in support of ASU are subject to foundation policies and fees. Please consult with your tax advisor regarding the deductibility of charitable contributions (IFAS 30002491). See pricing page for Deposit and Cancellation information.

Reserve your place today!

**Thank you to our travel provider
Donald Young Safaris**

While at Gombe, you will also have the opportunity to hear from researchers studying other primates, including baboons and red colobus monkeys.

Your trip will begin at the edge of the Ngorongoro Crater where you will visit Olduvai Gorge, an area essential to understanding how our genus, *Homo*, evolved. Then you will have a full-day, quintessential African animal experience to see the “Big 5.”

Finally, trek into the forests of Rwanda to observe wild mountain gorillas and golden monkeys and meet with gorilla researchers working at Karisoke, the site made famous by the pioneering work of Dian Fossey.

Itinerary overview

June 9

Welcome to Tanzania

Arrive Kilimanjaro International Airport
Arusha Coffee Lodge

June 10

Arrive Ngorongoro Crater

Afternoon visit to Olduvai Gorge
Ngorongoro Serena Lodge

June 11

Full day Ngorongoro Crater tour

Ngorongoro Serena Lodge

June 12

Discover Dar Es Salaam

Road transfer to Arusha
Commercial flight to Dar Es Salaam
Dar Es Salaam Serena Hotel

June 13

Gombe Stream National Park

Commercial flight to Kigoma
Boat transfer to Gombe Stream
Gombe Forest Lodge

June 14

Visit to feeding station, waterfall, Jane's Peak, chimpanzee trekking
Gombe Forest Lodge

June 15

Chimpanzee trekking
Gombe Forest Lodge

June 16

Relax, chimpanzee trekking, birds, or Red Colobus monkeys
Gombe Forest Lodge

June 17

On to Rwanda

Boat transfer to Kigoma
Commercial flight to Dar Es Salaam, and then on to Kigali, Rwanda
Kigali Serena Hotel

June 18

Rwandan culture and scenery

Market and museum visit
Road transfer to Virunga Nat'l Park
Mountain Gorilla View Lodge

June 19

Gorilla trekking

Visit to Iby Iwacu Cultural Village
Mountain Gorilla View Lodge

June 20

Golden monkey trekking

Visit to Karisoke Research Center
Road transfer to Kigali
Serena Hotel

June 21

Good bye Africa

Commercial flight to Nairobi
Dayroom Four Points by Sheraton Airport Hotel
Evening departure flight

Detailed itinerary

June 9–21, 2018

Saturday, June 9—Welcome to Tanzania

Arrive Kilimanjaro International Airport, Arusha, Tanzania
Overnight at [Arusha Coffee Lodge](#), *Dinner and breakfast included*

Upon arrival at Tanzania's Kilimanjaro International Airport, your flight will be met by our private drivers for your transfer to the Arusha Coffee Lodge. Accommodations at the Arusha Coffee Lodge consist of 18 plantation suites and 12 plantation rooms set in the midst of a working coffee estate almost a century old. Your rooms are a combination of modern comforts framed in the architectural style of the original coffee farm buildings dating back to the early 1900s.

Sunday and Monday, June 10 and 11—Ngorongoro Crater, Olduvai Gorge, and the “Big 5”

Road transfer to Ngorongoro Crater

Overnight at **Ngorongoro Serena Lodge**, *full board*

After breakfast, you will leave Arusha for a road transfer to the Ngorongoro Serena Lodge for two overnights. After checking in and having lunch at the lodge, you will tour Olduvai Gorge, the world-famous fossil site. Olduvai is where Mary and Louis Leakey’s team of archaeologists discovered some of the earliest human remains ever. Along the gorge’s dramatic cliffs have been found human ancestor fossils over 1.7 million years old. Evidence of *Homo habilis*, *Paranthropus boisei*, and *Homo erectus*, and their tools, have been found in this portion of the Great Rift Valley. After this fascinating tour, you will be transferred back to the Ngorongoro Serena Lodge for dinner.

On June 11, you will drive out on to the fabled Ngorongoro Crater a full day tour complete with a picnic lunch and drinks. The crater is justifiably considered one of the most spectacular spots on earth. Actually, this is a caldera, a sunken volcanic core, not a crater. It is about 120 square miles and provides a home for an amazing variety of animals. Fresh water year-round keeps a large population of buffalo, elephant, zebra, wildebeest, and antelope resident, as well as the rare black rhino. There are five known prides of black-maned lions here, competing with cheetah and hyena for their share of the food supply. No matter what you see, they all look spectacular against the backdrop of the dramatic caldera walls. Many have described Ngorongoro as one of the wildlife wonders of the world. In the late afternoon, when the light softens, the magic of Ngorongoro becomes overwhelming. Some have called it the original Eden; who are we to argue?.

The Serena Lodge is one of the finest hotels on the Ngorongoro Crater rim as it is beautifully designed to blend in with the dramatically beautiful surroundings. Serena is not as opulent as some other local lodges, but we find it is one of the most comfortable and offers well-trained and friendly staff. Needless to say, all rooms have nice views of the crater itself, but it is the attention to the small details of service that makes this hotel our choice.

Saturday, June 12—Travel and City Discovery

Road transfer to Arusha

Precision Air #425 flight (3:10–5:10 pm) to Dar Es Salaam

Overnight at **Dar Es Sallaam Serena Hotel** *dinner and breakfast included*

Today you will travel by road to Arusha for lunch and then take the afternoon scheduled flight to Dar Es Salaam. Your flight will be met for transfer to the Dar Es Salaam Serena Hotel. The rooms are comfortable and functional with views overlooking the bustling city center. Amenities include complimentary internet, tea/coffee making station, minibar, bathrobes and slippers. There is 24-hour room service and TV with satellite channels.

Wednesday to Saturday, June 13–16—Gombe and Chimpanzees!

Precision Air #486 flight to Kigoma (9:30 am–12:50 pm)

Boat transfer to Gombe Stream National Park

Overnight at **Gombe Forest Lodge** *full board*

After breakfast, you will be transferred to the airport for the flight to Kigoma. Upon arrival in Kigoma (near where Stanley famously met Dr. Livingstone), you will transfer to a motor boat for a sail (plan on about two hours) along Lake Tanganyika to Gombe National Park. After an adventurous day traveling to this remote area, you will be happy to check into your rooms at the Gombe Forest Lodge for the beginning of an amazing four-night stay.

In addition to accompanying you on these adventures, Dr. Gilby will give informal presentations on the history of chimpanzee research at Gombe, recent revelations, and ongoing projects. Dr. Anthony Collins, the director of baboon research, has graciously offered to give a talk about the history of the long-term Gombe baboon project.

Gombe Stream National Park is a thin strip of ancient montane forest bordering the second deepest lake in the world, Lake Tanganyika. This park was made world-famous for the primate studies conducted by pioneering British researcher, Jane Goodall. Prepare yourself for a truly remarkable experience of chimpanzees and nature in one of the most remote and untouched parks in Tanzania.

Chimpanzee trekking is conducted in the mornings, with afternoon hikes for the especially adventurous. Relax for the rest of the day or hike towards the spectacular waterfalls of Kakombe, an easy thirty-minute walk, or the slightly further Mkenke. Other attractions include the boisterous Olive baboons as well as the Vervet, blue and red-tail monkeys. Bushbuck can be found in the forest, while fish eagles and palm-nut vultures are often seen flying overhead.

There will be plenty of time for relaxation on the beach, snorkeling, exploring, birding, and seeing Red Colobus monkeys. You will have two to three chimp trekking experiences, along with a visit to the feeding station, waterfall, and Jane's Peak.

In the lush shade of ancient forest trees just off the shores of Lake Tanganyika, lies the small yet intimate Gombe Forest Lodge. It may be the smallest of the lodges but offers complete privacy by catering to just 14 guests at a time. Set on wooden platforms beneath mango groves on the lakeshore, the seven elegantly furnished luxury tents of Gombe Forest Lodge are designed to have every comfort while minimizing disturbance and impact on the environment. Fill your day with hiking through the trails, observing chimpanzees and birds, or exploring the lake by kayak. Enjoy sundowners around a campfire on the beach and unwind from the day's adventures. The cozy dining area, just a couple of steps off the beach, is built on a wooden platform with an extended outside deck shaded by the forest. A small library, with a selection of books and novels, is also available.

Sunday, June 17—On to Rwanda

Boat transfer to Kigoma

Precision Air #489 (12:10–3:00 pm) to Dar Es Salaam

Rwanda Air #441 flight (5:50–8:25 pm) to Kigali, Rwanda

Overnight [Kigali Serena Hotel](#), *dinner and breakfast included*

You will have a boat transfer back to Kigoma where you will be met and transferred to the airport for a flight to Dar Es Salaam then to connect to the Rwanda Air flight to Kigali, Rwanda. Your flight will be met for transfer to the Kigali Serena Hotel, which is a relaxed, yet elegant, five-star hotel located on one of Kigali's charming boulevards. It is situated in Central Kigali and is 10 km from the international airport.

Monday, June 18—Rwandan culture and scenic views

Kigali, Rwanda; road transfer to Virunga National Park

Overnight [Mountain Gorilla View Lodge](#), *full board*

After breakfast, you will visit to the Kimironko local market and have the option of visiting the Genocide Memorial Museum—a permanent memorial to those who fell victim to genocide in 1994 and pays tribute to the victims of this tragic chapter in world history.

You will then have a two- to three-hour drive on excellent roads, through “the land of a thousand hills” to Musanze. The scenery is stunning with hills and valleys of this green, lush country. Upon arrival, you will check into the Mountain Gorilla View Lodge.

The lodge is located on the foothills of Mount Karisimbi, one of the volcanic mountains that make up the Virunga Massif. The lodge is about a ten-minute drive to the main entrance of the Volcanoes National Park where gorilla trekking starts. Mountain Gorilla View Lodge is an eco-lodge with 30 chalets, constructed with locally available material and each chalet comes with a comfortable lounge with fireplace.

Tuesday, June 19—Among the mountain gorillas

Gorilla trek

Overnight [Mountain Gorilla View Lodge](#), *full board*

After an early breakfast, you will drive to the National Park headquarters at 6:30 am for the official briefing that starts at 7:00 am. Your guided trek will start at 8:00 am.

Volcanoes National Park protects the steep slopes of this magnificent mountain range—home of the rare mountain gorilla—and the rich mosaic of montane ecosystems, which embrace evergreen and bamboo forest, open grassland, swamp, and heath. You may spot a wide variety of bird life, but the high point will be spending an hour with the gorillas as they go about their daily life, feeding, playing, resting, and raising their young.

After trekking, you will return to the lodge for lunch. In the afternoon, weather and energy permitting, your guides will accompany you through the rural countryside and villages of Kinigi and Musanze where you can experience the local culture as well as visit the Iby Iwacu Cultural Village.

Wednesday, June 20—Pursuing the endangered golden monkeys

Golden money trek, visit the Karisoke Research Center

Overnight at [Kigali Serena Hotel](#), *dinner and breakfast included*

This morning you will have a trek to see the rare and beautiful golden monkey. Golden monkeys are listed as endangered—and the park currently has two troops of golden monkeys that are habituated—with about 80 members. Golden monkeys live in the bamboo vegetation towards the base of the volcanoes, and habituation has helped them to overcome their initial shyness to accept daily visits by researchers and tourists.

Treks to see golden monkeys and gorillas are conducted in a similar manner—small groups of no more than eight people get to spend one hour with the monkeys once you find them. These monkeys are very active creatures and jump from tree to tree, which is really interesting though a little difficult to photograph!

After the trek, you will return to the hotel for lunch. In the afternoon you will drive to the Karisoke Research Center, founded by Dian Fossey, and hear from scientists researching the mountain gorillas, with a tour of their lab, which has been arranged by Dr. Gilby.

You will return by road to Kigali the Serena Hotel for dinner.

Thursday, June 21—Good-bye Africa!

Return to Nairobi, Kenya

Rwanda Air #402 flight (8:30–10:55 am)

Dayroom at [Four Points Sheraton Hotel](#)

Today you will be transferred to the Kigali airport for the flight back to Nairobi where you will be met and taken to day rooms at the Four Points by Sheraton Nairobi Airport Hotel for late evening departures. The hotel is conveniently located within the Jomo Kenyatta International Airport Complex. There is a rooftop pool and a fully equipped fitness room and a variety of dining options. With scenic views over the National Park, the rooftop bar and grill features Best Brews beer, local flavors, and animal watching in the distance. There are two spa rooms.

Your program includes the transfer to Jomo Kenyatta International Airport for your late evening departure flight.

This itinerary presupposes that everyone will book their international air tickets into Arusha, Tanzania's Kilimanjaro International Airport, and depart from Nairobi's Jomo Kenyatta International Airport. Most of the international carriers such as KLM Royal Dutch Airlines do not charge extra for tickets arriving in Arusha and departing from Nairobi. Other airlines who service both airports include Qatar, Emirates, and British Airways.

If you prefer to book your international air ticket round trip into and out of Arusha, we are happy to book the flight from Nairobi to Arusha for you. Donald Young Safaris is happy to book any travel before or after this program.

Rates and charitable donations

\$11,700* per person
sharing **Gombe Forest Lodge at Gombe**,
includes \$1,500 each for Rwanda Gorilla permit
\$1,760.00 single traveller supplement

**Cost is based on current exchange rates. Single traveler supplement is required. Your gift of \$2,500 per person will be deposited with the ASU Foundation for a New American University, a separate nonprofit organization that exists to support ASU. Gifts in support of ASU are subject to foundation policies and fees. Please consult with your tax advisor regarding the deductibility of charitable contributions (IFAS 30002491).*

Pricing is based on a minimum of 8 guests. More confirmed guests will reduce the price per person. The group is capped at 16 people, plus Dr. Gilby and a guide.

The Gombe Forest Lodge holds a maximum of 14 people at first-come, first-served availability. Additional travelers will be accommodated at the TANAPA Rest House, lower-priced but more basic accommodations.

Payment

A deposit of 30 percent of the final quotation is required to confirm the safari. This deposit must be received before any bookings can be made. The balance is payable 60 days prior to safari starting date—Friday, April 8, 2018.

Cancellation policy

Cancellation insurance is highly recommended.

- If notice of cancellation is received at least 120 days prior to travel starting date, the full deposit less \$2,000 per person handling fee is refunded.
- If such notice is received between 60 and 120 days prior to travel starting date, the full deposit is forfeited.
- If such notice is received between 30–60 days prior to travel starting date, 50 percent of the full travel cost is forfeited.
- The full travel cost is forfeited if such notice is received less than 30 days prior to travel starting date.
- Note: Gorilla permits are nonrefundable in the amount of \$1,500 per person.
- Note: Golden monkey permits are nonrefundable in the amount of \$100 per person.

Donation

*In addition to the cost of travel, the ASU Institute of Human Origins requests a **charitable donation of \$2,500 per person** (under 18 years of age excluded, traveling with family). Your gift will help to fund student scholarships, field and laboratory research, and operations of the institute.

Included

- Ian Gilby, PhD, as host/guide throughout the trip
- Accommodations, transport, and most meals
- Scheduled flights as shown
- Airport arrival and departure transfers
- Local safari manager accompanying group in Tanzania
- Drivers and guides in Rwanda
- Water, soft drinks, juices, and beers in camps (liquor, wine extra)
- **East African Flying Doctor Society** membership

Excluded

- International airfare
- Cost of obtaining passport or visa, excess baggage charges
- Meals, wine, liquor unless specified in the itinerary
- Expenses such phone, internet, fax, room service, etc.
- Travel insurance and any items not specified under inclusions
- Gratuities

Additional information

Physical nature of this trip

If you have read the itinerary carefully, you can see that some of the forest and mountain trekking will require some moderately strenuous hiking. Chimpanzee, gorilla, and monkey trekking outings will be several hours each in warm temperatures. Please be sure you are physically ready to take on this amazing adventure!

U.S. currency

For use of U.S. cash in African countries, it must be currency issued 2006 or later.

Passports and visa requirements

Kenya: It is easy to get a Kenya visa on arrival at the Nairobi airport. You must arrive with U.S. \$50 (subject to change) per person cash and a simple form that you can fill out and take with you. No photo required. Join the line for visas, which may take ten to twenty minutes, where they stamp in your visa, and you are through and on your way. Another Kenya visa is not required after the Rwanda visit.

Tanzania: Visas can be obtained on arrival for \$100 per person in cash. Take a filled-out visa application form and two passport photos.

Rwanda: Visas are now required for Americans and Canadians for U.S. \$30 per person. This could increase at any time to U.S. \$50 per person, so be prepared for an increase.

Other destinations in Africa: When traveling to Africa, please note your passport **MUST** be valid for at least six months from the guest's departure date. There must be at least three blank visa pages in the passport (not endorsement pages). This is a good practice no matter where you are traveling.

Malaria/Yellow Fever preparation

Donald Young Safaris recommends Malarone as the best malaria suppressant available in the United States and recommends that you consult with your doctor for the appropriate doses.

They highly recommend that you only take anti-malaria medicine in the evening after a full meal. Although Malarone is said to have less side effects than previous malaria medicines, people are still known to experience sun sensitivity, nausea, and fever, especially after the first few doses.

It is required that you have a Yellow Fever International Health Card that you get from a doctor for travel in Tanzania and Rwanda. It is wise for any traveler to be up-to-date on tetanus, polio, etc.

Luggage limits

Luggage limit on Precision Air flights is 50 lbs. maximum per person, plus carry-on for a maximum of 15 lbs. per person. The airlines request you use soft-sided luggage such as duffel bags. There is maximum of 66 lbs. for Rwandair flights, plus carry-on of a maximum of 15 lbs. per person.

Travel insurance

Donald Young Safaris requires you to make arrangements that you and your property are fully insured for the duration of your trip. Make sure to check with your health insurer that any injury sustained or medications required are covered by your health insurance.

Similarly, you are asked to arrange adequate insurance in the unforeseen event of postponement or cancellation. Travel insurance will need to be purchased soon after you make your deposit for the travel, so check on travel insurance soon after securing your place on the trip.

Liability

Although every possible care is taken to safe guard you and your property, we accept no liability for any accidents, injuries, or illness to clients incurred from any safari or for any loss or damage to clients' property during safari. A separate release will need to be executed for Arizona State University.

Travel provider—Donald Young Safaris

The ASU Institute of Human Origins is partnering with our long-time friend Don Young and his company, **Donald Young Safaris / Newland, Tarlton & Co Safaris and Expeditions** to plan and execute this trip program. Don has owned the company since 2001 and has led travel in Africa for many years. His company operates out of Colorado, which makes payment for the trip easy and within the U.S.
